(213)-829-3399 | Los Angeles, CA | vishwasa@usc.edu | [linkedin.com/in/vishwapatel2405](https://www.linkedin.com/in/vishwapatel2405) | github.com/vishwapatel24051

Education

University of Southern California, CA, USA

Jan 2026–Present

- Master of Science (M.S.), Computer Science
GPA: 3.66/4
- Courses: Analysis of Algorithms, Web Technologies, Database Systems, Agentic AI, Natural Language Processing
- Grader, Database Systems (CSCI 585): Designing exam questions and grading rubrics, evaluating student submissions.

Gujarat Technological University, Gujarat, India

Aug 2019–Jun 2023

- Bachelor of Engineering (B.E.), Computer Engineering
GPA: 3.95/4
- Courses: Data Structures, Object-Oriented Programming, Theory of Computation, Software Engineering, Machine Learning, Operating Systems

Technical Skills

- **Languages:** Python, Java, C#, C++, JavaScript/TypeScript, Go, SQL, HTML/CSS
- **Frameworks & Tools:** .NET MVC, React, Next.js, FastAPI, Spring Boot, Node.js, REST APIs, RabbitMQ, Microservices, JUnit, Postman
- **AI/ML:** PyTorch, RAG, LLMs, Prompt Engineering, Gen AI, Agentic AI, Claude API, ONNX
- **Databases:** PostgreSQL, Redis, MySQL, MongoDB, Elasticsearch
- **Cloud & DevOps:** AWS, Docker, Kubernetes, CI/CD, Git, Linux, Agile/Scrum

Professional Experience

Software Developer, Casepoint Pvt. Ltd, Gujarat, India

Jul 2023–Jun 2025

- Diagnosed a file-locking constraint blocking concurrent processing in an ETL pipeline and re-architected it to run in parallel, scaling throughput by roughly 90%.
- Used Redis to stage status updates during processing and RabbitMQ to coordinate handoffs between distributed services, cutting latency by 80%.
- Built an automated recovery workflow for failed processing jobs, letting clients trigger reprocessing and cutting manual intervention by 50–70%.
- Designed and built a new processing capability end to end, implementing the user interface and application logic using C# and MVC architecture, integrated into the CI/CD pipeline with peer code review.
- Engineered custom field selection for a client-facing reporting module, cutting report generation time by 30%.
- Collaborated with developers and designers spanning 5+ cross-functional teams to extend application and API architecture without breaking shared integrations.
- Resolved 10–20 high-priority production tickets a week through hands-on testing and debugging, including night/on-call support.

Software Developer Intern, Casepoint Pvt. Ltd, Gujarat, India

Jan 2023–Jun 2023

- Created a desktop-based Recruitment System (.NET MVC, C#, Windows Forms, PostgreSQL, Kendo UI) with 20+ screens, covering design, development, and testing with client- and server-side validation.
- Integrated RabbitMQ for asynchronous messaging between app components as part of an Agile sprint cycle.

Software Engineer Intern, Amiseq, Pune, India

Jun 2022–Jul 2022

- Shipped 10+ RESTful API endpoints in Java (Spring Boot, PostgreSQL) as modular microservices for CRUD operations.
- Wrote JUnit unit tests alongside Postman validation, catching integration issues early.

Projects

TechHire: AI Job Search Platform | Python, FastAPI, React, PostgreSQL | [GitHub](#)

- Developed a full-stack job platform integrating a Python scraper, FastAPI backend, and React frontend, indexing 5,000+ postings (~7ms search) with a Groq-based LLM pipeline scoring candidate-job fit 0 to 100.

GTM Signal Agent | Python, FastAPI, React, PostgreSQL | [GitHub](#)

- Built an AI sales agent with a FastAPI service and React interface, calling a model layer over Groq, Ollama, and Anthropic, with a PostgreSQL-backed risk-scoring engine flagging stale deals within a 30-day window.

Smart Document Reader | Python, FastAPI, PostgreSQL/pgvector, Ollama | [GitHub](#)

- Implemented a local-first RAG assistant where a FastAPI service calls Ollama for inference and PostgreSQL/pgvector for hybrid retrieval, benchmarked across 16 configurations.

Leadership & Awards

- **Casepoint Excellence Award, 2024** (Sprint Delivery Standout): Awarded for outstanding sprint delivery and performance.
- **Orientation Leader, USC Viterbi Graduate Programs (VGOL):** Welcomed and guided 1,200+ incoming master's engineering students through New Student Orientation, partnering with 20+ fellow leaders.
